Book Reviews & Authors

What Time is it? -

This week first graders are reading about what happens to a little boy on his way to school. They'll explore the question, "How do we measure time?" Students will also listen to a poem called, 'A Second is a Hiccup' containing words we use to talk about time. Then they'll learn some useful facts in the informational text, It's About Time!

Skills:

Character, Setting, & Plot

Sequencing

Spelling (1/26):

top, stop, men, fix, fox

Words to Know:

green, grow, pretty, should, together, water

Math & Science Frontiers

Telling Time -

Mr. Cole's first graders will soon learn about aspects of time and develop an understanding of how long a minute is. Students will also be learning how to read an analog clock using the hour and minute hands to tell time to the hour and half hour.

In upcoming weeks, the class will then focus on longer durations of time and use the calendar as a tool to measure days, weeks, and months. First graders need to know each of these units in their correct order.

At home, you may also want to review kindergarten concepts such as; yesterday, today, and tomorrow.

CONTINUE TO PRACTICE ADDITION FACTS!
(set new goals as you improve)
